

Eliseo Gasion

Industrial Designer & Product Engineer

Cordoba, Argentina | Available Worldwide / Remote

(+54) 351 522-1863 | eliseogasion@gmail.com | linkedin.com/in/eliseo-gasion | eliseo-gasion.vercel.app

PROFESSIONAL SUMMARY

Industrial Designer (FAUD, National University of Cordoba) with 5+ years engineering Class-A automotive plastic components for global OEM programs including Volkswagen, Stellantis, Renault, and Toyota. Bridges rigorous production CAD feasibility (CATIA V5, DFM for high-pressure injection molding) with high-fidelity 3D visualization (Blender, KeyShot) for clear design communication. Founder of Estudio 55, an independent furniture and product design studio. Available for remote product design and visualization roles worldwide.

PROFESSIONAL EXPERIENCE

Product Engineer & Industrial Designer

Teknis | Cordoba, Argentina | Jun 2023 - Present

- CAD design and engineering of exterior and interior automotive plastic components for the Renault H1312 (Niagara pickup) program: fenders, front/rear bumpers, lateral claddings, and center consoles.
- Industrialized styling Class-A surfaces into production-ready injection-molded parts: parting lines, draft angles, structural ribbing, bosses, and snap-fits for high-volume serial production.
- Delivered technical 3D visualization renders for international design sign-offs with Renault headquarters.

Tools: CATIA V5, SolidWorks, KeyShot, Blender, Photoshop

3D Artist & Animator

BIRCLE | Remote | Dec 2022 - May 2023

- Created high-fidelity 3D assets, procedural PBR shading, and cinematic 360-degree animation loops for digital art collections and real-time displays.
- Optimized polygon topology and UV unwrapping; designed studio lighting rigs and atmospheric compositing in Blender and Premiere Pro.

Tools: Blender, Photoshop, Premiere Pro, After Effects

Product Engineer

Volt Motors | Cordoba, Argentina | Oct 2022 - Nov 2022

- Designed interior and exterior plastic assemblies for 100% electric urban vehicles, including headlights, taillights, dashboards, and assembly jigs.
- Integrated lighting modules per automotive regulatory visibility standards; designed ergonomic dashboard components and factory assembly fixtures.

Tools: SolidWorks, KeyShot, AutoCAD

Harness Electrical Conceptor

Renault Argentina (via Segula) | Cordoba, Argentina | Jun 2022 - Sep 2022

- Maintained 3D digital mockups (DMU) for electrical harnesses and ADAS/multimedia architectures across serial production programs.
- Managed engineering change requests (ECR) with global suppliers; validated packaging constraints in CATIA V5 ENOVIA.

Tools: CATIA V5 ENOVIA, Renault DMU Tools

Product Engineer & Surfacing Specialist

Teknis | Cordoba, Argentina | Jun 2020 - May 2022

- Core member of a multinational engineering team (Argentina, Brazil, Italy) for the Volkswagen Amarok 2024 headlights: G2 continuous Class-A optical surfaces in CATIA V5 Generative Shape Design.
- Reverse-engineered laser 3D-scan point clouds for F2J Lighting (France); prepared KeyShot presentation renders for styling approvals.

Tools: CATIA V5 (GSD), 3D Laser Scanning / Reverse Engineering, SolidWorks, KeyShot

EDUCATION

Bachelor of Industrial Design

National University of Cordoba (FAUD UNC) | Cordoba, Argentina | 2017 - 2023

- Graduation thesis: development of an immersive flight training simulator for initial-phase pilot instruction (cockpit layout, ergonomic throttle/yoke mechanisms, structural engineering).

Electronics & Telecommunications Technician

Instituto Tecnico Salesiano Villada | Cordoba, Argentina | 2010 - 2016 (GPA 8.05/10)

- C++ programming, power and analog electronics, industrial PLC automation, communication protocols (Modbus, RS485).

CORE SKILLS

- CAD & Automotive Surfacing: CATIA V5 (GSD & Part Design, Class-A OEM surfacing), SolidWorks (parametric modeling), 3D scanning & reverse engineering (scan-to-CAD).
- Rendering & Post-Production: Blender (Cycles & Eevee, lighting & PBR shading), KeyShot (studio vehicle renders), Adobe Photoshop & Premiere (retouching & video).
- Real-Time & Fabrication: Roblox Studio (lighting & real-time assets), CNC machining (CAM / G-code), AutoCAD.

LANGUAGES

- Spanish: Native.
- English: B2 Upper-Intermediate - fluent technical and conversational English; daily collaboration with international teams.
